

CH-50

Item ref: 174.172UK

Overdrive / Distortion Pedal

User Manual

Caution: Please read this manual carefully before operating
Damage caused by misuse is not covered by the warranty

Thank you for choosing a Chord effect pedal to give your instrument a new sound dimension. Please read below for an explanation of the controls and to get the best results from your new effect.

Each Chord 50-series effect pedal is supplied with a 9V battery, which needs to be connected to the battery clip inside the underside battery compartment. Carefully remove the plastic cover by squeezing its clip and levering outwards. Clip back into place once the battery is fitted.

Controls and connections are described below.

1. Optional 9V DC jack power input
2. Effect on/off indicator
3. Depth - adjusts the depth of the effect
4. 6.3mm jack output - to amplifier
5. Speed - adjusts the modulation speed of the effect
6. Volume - adjusts the output level of the effect
7. 6.3mm jack input - from guitar
8. Effect on/off footswitch

The CH-50 adds a constantly changing detuned copy of the guitar signal to expand and thicken the original guitar sound and add a spatial and ethereal dimension. Much favoured throughout the pop artists of 1980's and 1990's, the chorus effect has its own distinctive character that works great from clean arpeggios to distorted power chords. Depth and Speed controls offer different flavours of the effect whilst Volume allows a pre-set level for when the effect is switched in.

Unplug the guitar input jack to preserve the battery when not in use. If the pedal is not being used for long periods, it is advised to remove the 9V battery. Optional external power can be from a 9Vdc adaptor, centre-negative polarity with a rating of 100mA or higher recommended.

Disposal: The "Crossed Wheelie Bin" symbol on the product means that the product is classed as Electrical or Electronic equipment and should not be disposed with other household or commercial waste at the end of its useful life. The goods must be disposed of according to your local council guidelines.
